

Flight Stool

Designer: **Barber Osgerby**

Manufacturer: **Isokon Plus**

£450

DESCRIPTION

Flight stool by **Barber Osgerby** for **Isokon Plus**.

The Flight stool was originally designed by Barber & Osgerby in 1998 for one of their architectural projects and was manufactured by Isokon Plus with many of their early designs. It was displayed as part of a sculptural installation at the Atlantis Gallery in East London and subsequently added to the permanent collection of the Victoria and Albert Museum.

With an aerodynamic form as suggestive of movement as its name, the Flight stool has a light and dynamic presence yet is remarkably sturdy.

DIMENSIONS

40w x 41.5d x 46cmh

MATERIALS

Made from 11mm formed plywood and available in birch, oak or walnut finishes.
