

## Joy Shelf Unit

Designer: **Achille Castiglioni**

Manufacturer: **Zanotta**

~~Was £3,300~~ Now £2,805

## DESCRIPTION

**Joy Shelf Unit** by **Achille Castiglioni** for **Zanotta**.

Designed in 1989, this rotating shelf unit features uprights and shelves in medium density fiberboard with internal steel corner reinforcing.

An elegant and simple object made of six "overturned L-shaped" elements and a low supporting element that functions as a base for metal joints on which shelves are mounted. The product features five or seven shelf surfaces, each being 29cm in height.

## DIMENSIONS

Five shelves - 96w x 30d x 132cmh

Seven shelves - 96w x 30d x 190cmh

## MATERIALS

Uprights and shelves in medium density fiberboard with internal steel corner reinforcing, finished with scratch-resistant embossing in white, black or burgundy.

Steel articulated joints painted black for the models black or burgundy, or in the shade white for the white model. The shelf unit is available with either five or seven shelves.
