Honouring their Nordic heritage, Asplund creates contemporary furniture in collaboration with celebrated Swedish designers and architects. Their simple, versatile and high-quality designs make for considered, functional living and working.

Part of the extensive Kilt series, the Kilt sideboard features four doors and one removable shelf inside. Inspired by the principles of the architectural theory 'The Golden Section', the grid-like tartan pattern hides both doors and drawers.

As standard, the back panel of the Kilt cabinet has openings for both cables and ventilation and is, therefore, suitable for use with electronic devices. The cabinet comes with four doors with one removable shelf behind each door.

Kilt cabinet is available in two widths, 137cm and 180cm. 180cm wide cabinet has four doors with one removable shelf behind each door. From right to left, doors measure 18, 62, 37 and 62cm in width. Please enquire if interested in the 137cm wide Kilt sideboard.
