

Aqua Culture vase

Manufacturer: **Kinto**

£20

DESCRIPTION

Aqua Culture vase by Kinto.

Aqua Culture vases offer a distinctively Japanese take on the classic hyacinth bulb vase allowing you to observe growing plants from root to tip.

A bowl-like insert in the neck of the vase supports a bulb or seed sustained by the water contained below and sends out shoots above. Whether used to germinate avocado seeds or propagate cuttings, it brings plant life to interior space and offers an intriguing insight into plant growth.

Available in the small size.

DIMENSIONS

Small: 7dia x 12.5cmh

MATERIALS

Glass.
