

Slow Coffee carafe set

Manufacturer: **Kinto**

£45

DESCRIPTION

Slow Coffee carafe set by Kinto.

Coffee aficionados consider the pour-over brewing process (pouring hot water over freshly ground beans to release their flavour) to result in the most fully flavoured and delicately balanced cup of coffee.

Kinto's Slow Coffee family of accessories have been meticulously crafted to enhance every aspect of the coffee-brewing process, introducing a considered thoughtfulness to this daily act and allowing you to produce your ideal hot drink.

The Slow Coffee carafe set consists of a glass jug, a stainless steel coffee filter and a filter stand which doubles as a measuring cup for coffee beans.

To use, place the stainless steel filter in the neck of the jug and fill with medium ground coffee. Pour hot water over slowly (Kinto's Pour Over kettle is ideal for this task) and allow to percolate for the perfect cup of coffee. A stainless steel filter preserves more of the oils released by the coffee beans, maximising the rich aroma of your brew.

When the coffee has percolated, place the filter in the glass filter holder and pour.

All parts are stackable.

DIMENSIONS

10dia x 15cmh

Capacity 300ml

MATERIALS

Made of heat-resistant glass.
