

Klismos Chaise Longue

Designer: **Antonio Citterio**

Manufacturer: **Knoll**

£9,552

DESCRIPTION

Klismos Chaise Longue by **Antonio Citterio** for **Knoll**.

Designed in 2022, the Klismos by Antonio Citterio is a collection for modern living while referencing Knoll design traditions. With particular importance given to sustainability, the collection uses mostly natural materials like wood.

The Klismos seating family offers an original blend of materials and dynamic, sleek forms. The natural cotton cord weave seats and backs complement its oak wood structure. The chaise is available with upholstery in numerous fabric and leather choices for greater comfort.

Convert the stylish chaise longue into a méridienne by rearranging the armrest bolster. The headrest bolster comes attached to the structure with either black or natural leather laces based on the finish of the oak structure.

DIMENSIONS

187.5w x 78.5d x 42/92cmh

MATERIALS

Frame in natural-tone or black oak finish. Interwoven cotton cord in natural or black colour based on the finish of the frame.

Upholstered in fabric or leather, with removable covers. The pre-covering is in cotton canvas and feather, with padding in natural material of vegetable origin. Equipped with a bolster for armrest use, which can be freely positioned. The headrest bolster is attached to the wooden frame of the chaise longue with natural-coloured leather cord or black-coloured leather cord to match the colour of the frame.
