DESCRIPTION

Smalto Low table by **Barber Osgerby** for **Knoll**.

The sculptural Smalto table collection by Barber Osgerby was conceived through an approach to materiality, the contemporary graphic forms reinterpreting themes of classic designs. The choice of enamel-coated steel allowed for a design which would be durable, lightfast and waterproof. Enamel finishes can provide a depth of colour and a finish not often associated with large furniture items.

The table features a rounded design bringing a soft feel while offering stability with great visual lightness. The low table is a great choice for various spaces in the home and comes in three different sizes.

Also available in five different colours.
