

## Womb Chair Relax

Designer: **Eero Saarinen**

Manufacturer: **Knoll**

£3,948

## DESCRIPTION

**Womb Chair Relax** by **Eero Saarinen** for **Knoll**.

When asked by Florence Knoll to design 'a chair that was like a basket full of cushions - something she could really curl up in', Eero Saarinen produced the Womb chair.

The 1946 Womb chair displays the Finnish-born designer's flair for challenging rules, breaking moulds and setting new standards for modern design. Its inviting contours and softly cushioned upholstery support a range of seating positions.

The newly released Womb Chair Relax offers the sitter a reimagined look and feel, with feather cushions adding a softer touch to this contemporary classic. An injection-moulded frame and nylon webbing provides both rigidity and lightness without compromising on comfort.

## DIMENSIONS

105w x 92d x 43.5/94cmh

## MATERIALS

Frame in polished chrome or painted black.

Available in dacron filled.

For upholstery options, please consult the downloadable Knoll fabrics pdf in Product Downloads, or contact us to view samples.
