

## Platner Gold Coffee Table

Designer: **Warren Platner**

Manufacturer: **Knoll**

£3,540

### DESCRIPTION

**Platner Gold coffee table** by **Warren Platner** for **Knoll**.

To celebrate its 50th anniversary the Platner collection is now available in an 18K gold-plated finish.

Warren Platner designed the Platner Collection in 1966, and his intention was for it to be gold-plated. The technology of the time made gold plating in large-scale production impossible, however, which resulted in the collection being made in nickel-plated steel. 50 years later, the Platner Collection Gold fulfils Platner's original wish.

Available in two sizes.

### DIMENSIONS

91.5dia x 38.5cmh

107dia x 38.5cmh

## MATERIALS

The Platner coffee table is made up of hundreds of individual welds that have been soldered by hand. The frame is made from vertical steel wire rods welded to a round and edge-framing rod. A clear plastic extrusion ring creates a smooth bottom surface. 18K gold-plated finish, coated with clear lacquer for protection. Tabletop in clear or bronze glass, or in a range of different marbles, please see pdf in Product Downloads for information.
