### DESCRIPTION

**Miau Lounge Chair** by **GamFratesi** for **Koyori**

A natural evolution from the previously launched dining chairs, the Miau Lounge Chair blends Scandinavian and Japanese design styles while featuring precise wood bending and expert wood carving techniques.

As the name suggests, this seat draws inspiration from a cat, not only in the shape of the armrest, which is redolent of a cat's ear, but also in the chair's gracefulness.

Generously proportioned, the wooden seat and backrest of the Miau Lounge Chair have been intricately curved to ensure maximum comfort. Crafted from a single piece of bentwood, the arms and backrest showcase a uniform grain and outstanding durability.
