

Kawara Armchair

Designer: **Ronan and Erwan Bouroullec**

Manufacturer: **Koyori**

£1,591

DESCRIPTION

Kawara Armchair by Ronan + Erwan Bouroullec for Koyori.

Inspired by Sori Yanagi's iconic Butterfly stool, the Bouroullec brothers set out to produce a chair which combined the high-quality details of Japanese craftsmanship with European design. The result is the Kawara Armchair, a simple, box-like seat with a three-dimensionally contoured backrest and armrest.

The experienced artisans at Koyori have thoughtfully designed the chair using three different moulds for the backrest, armrest and seat, ensuring no need for unadorned reinforcement. It has been crafted from moulded plywood, a material chosen not only for its strength and structural stability but also for its aesthetic qualities.

The chair is available in four different finishes natural, matte black, green or grey and is ideal for use at a meeting or dining table.

The chair is also available with an upholstered seat which can be located in the related product section below.

The natural oak finish is available for quickship.

DIMENSIONS

55w x 53d x 45/82cmh

MATERIALS

Moulded plywood with oak veneer.

Available in four finishes: Natural, Natural Black, Grey and Green.
