

Shaku Chair

Designer: **Ronan and Erwan Bouroullec**

Manufacturer: **Koyori**

£1,020

DESCRIPTION

Shaku Chair by Ronan & Erwan Bouroullec for Koyori.

Designed by the award-winning design duo Ronan and Erwan Bouroullec, the Shaku chair is a small yet charming seat which combines simplicity and precision with durability.

The seemingly straightforward chair creates an illusion that the contoured seat is holding the curved backrest, a design feature accomplished through expressive modelling techniques and careful accuracy.

Shaku's high backrest offers comfort and support, whilst its compact width allows it to be easily tucked under a table, making it ideal for use at a dining or meeting table.

The Bouroullec brothers consider the Shaku chair to be boundless of time, suggesting it appears as though it could have existed several centuries ago.

DIMENSIONS

34w x 51d x 45/82cmh

MATERIALS

Beech with urethane finish in black.

Carbon Footprint: 5.74 kg CO₂e
