DESCRIPTION

Latte chair by **AC/AL** for **Very Good and Proper**.

Very Good and Proper's first venture into outdoor furniture - the Latte chair was designed in collaboration with the Paris-based design duo Amandine Chhor and Aissa Logerot of AC/AL.

The chair's shell is constructed from Trifilon; an innovative and weather resilient hemp and recycled plastic biocomposite. This reduces the chair's CO2 footprint by approximately 85% in comparison to a standard plastic chair. The special hemp fibres running through the seat offer a subtle texture, whilst also providing durability and strength - making it perfect for use in any outdoor environment.

Available in three warm-toned hues - brick red, grey brown and natural. The tubular steel frames are powder coated in matching colours, with an outdoor grade finish. Available with or without arms.
