

AJ Eklipta Wall/Ceiling Light, 1959

Designer: **Arne Jacobsen**

Manufacturer: **Louis Poulsen**

£410

DESCRIPTION

AJ Eklipta wall/ceiling light by **Arne Jacobsen** for **Louis Poulsen**.

AJ Eklipta was originally designed by Arne Jacobsen in 1959 for Rødovre Town Hallin, where they were used to illuminate stairways. A smaller 22cm diameter was later designed for St. Catherine's College in England.

The wall-mounted option features holes for side cables in the mounting block, while wall/ceiling and ceiling only variants have no holes for cables.

Also available in an outdoor variant. Please see 'More products in this range' below for details.

DIMENSIONS

Small: 22dia x 10cmh

Medium: 35dia x 10.5cmh

Large: 45dia x 10cmh

MATERIALS

AJ Eklipta provides soft and comfortable lighting. The construction of the glass ensures an evenly lit surface. The three-layer mouth-blown glass shade has a clear edge, creating a halo of light around the perimeter.

White opal glass shade and white, powder-coated aluminium ceiling/wall block.

Available in three sizes, large, medium and small.

The medium and large sizes may be mounted on either wall or ceiling while the small size is available in the wall only variant.

Light sources:

Small G9: 1x33W QT-ax 14

Medium and Large E27: 1 x 60W E27

Small LED: 2700k 3.8W

Medium LED: 3000K 8.8W

Large LED: 3000K 23W

G9 and E27 light sources not included.
