

## AJ Garden Bollard

Designer:**Arne Jacobsen**

Manufacturer:**Louis Poulsen**

£640

## DESCRIPTION

**AJ Garden Bollard** by **Arne Jacobsen** for **Louis Poulsen**.

Gaining global recognition, Arne Jacobsen's AJ lamp series is widely considered one of his most celebrated works. Initially designed in 1957 for the SAS Royal Hotel in Copenhagen (now Radisson Collection), the series included a floor lamp, a wall lamp, and several table lamp variations.

The AJ Garden bollard is a fresh interpretation of the original AJ lamp for outdoor use. Sharing the same recognisable angles and forms as the rest of the family, the lamp emits a fully shaded downward-directed light that is glare-free and pleasant to the eyes.

The garden bollard is available in two sizes and can be fitted with three different installation methods, including a base plate, spike, or anchor.

## DIMENSIONS

Small: 50.4cmh  
Large: 95.4cmh  
Shade: 114dia x 247d  
Stem: 12dia

## MATERIALS

Shade crafted from cast aluminium with stem and base plate in stainless steel.

Spike mounting made from cast aluminium with ABS housing.

Anchor mounting made from steel.

Diffuser made from injection moulded opal PC.

The adapter is placed externally from the bollard and can run up to 6 bollards. Maximum distance to last bollard is 30m.

Integrated LED available in three kelvin temperatures: 2700K, 3000K and 4000K.
