

Flindt Wall Light

Designer: **Christian Flindt**

Manufacturer: **Louis Poulsen**

£495

DESCRIPTION

Flindt wall light by **Christian Flindt** for **Louis Poulsen**.

The Flindt wall light, designed in 2018, is an elegant and sculptural wall light designed by Danish designer Christian Flindt. Bold while understated, the wall light has a carved out design which produces a gentle glow.

The wall light features an opening in the top that emits a soft light from two LED light sources, creating a ring of ambient light around and within the wall fixture. The oval form curves away from the mounting surface creating an impression of a light, floating appearance.

"We wanted to create comfort and avoid glare, using multi-directional light that guides and illuminates, while being pleasing on the eye. Like a solar eclipse, it's remarkable yet perfectly natural in its environment – an important balance in lighting design." - Christian Flindt.

Comes in three sizes.

DIMENSIONS

20dia x 6.1dcm

30dia x 8.3dcm

40dia x 10dcm

MATERIALS

Utilising different processes such as 3D printing and metal casting, Christian Flindt was able to determine the ideal proportions and light in the different sizes.

Suitable for Indoors and Outdoors, the light is easily adaptable to a range of spaces.

Available in the following finishes: aluminium coloured, black, white and corten coloured.

LED 2700K 10W/16W/20W.
