

PH 5 Monochrome Pendant

Designer:**Poul Henningsen**

Manufacturer:**Louis Poulsen**

£875

DESCRIPTION

PH 5 Monochrome Pendant by **Poul Henningsen** for **Louis Poulsen**.

Rooted in a painstaking analysis of the reflective qualities of light, Poul Henningsen's PH 5 light is recognised as a classic of Danish design and is notable for its innovative glare-free form and uniform illumination.

Henningsen developed the PH 5 pendant light in 1958 in response to constant changes to the shape and size of incandescent bulbs by bulb manufacturers. The light derives its name from the 50cm diameter of the shade. Irrespective of how the light is installed or the light source used, the PH 5 is completely glare-free, due to Henningsen's ingenious three-shade system.

A mini version is also available, please enquire **here** for more information.
