

PH 5 Pendant

Designer: **Poul Henningsen**

Manufacturer: **Louis Poulsen**

£875

DESCRIPTION

PH 5 Pendant by Poul Henningsen for Louis Poulsen.

Rooted in a painstaking analysis of the reflective qualities of light, Poul Henningsen's PH 5 light is recognised as a classic of Danish design and is notable for its innovative glare-free form and uniform illumination.

Henningsen developed the PH 5 pendant light in 1958 in response to constant changes to the shape and size of incandescent bulbs by bulb manufacturers. The light derives its name from the 50cm diameter of the shade. Irrespective of how the light is installed or the light source used, the PH 5 is completely glare-free, due to Henningsen's ingenious three-shade system.

The integration of a red cone and a coloured reflector inside the shade also generates a warmer tone of light by subduing the green-yellow light generated (human eyes are most sensitive to this region of the spectrum).

DIMENSIONS

Shade: 50dia x 26.7cmh

MATERIALS

The shade and reflectors are made of spun aluminium, with rolled aluminium struts.

The PH 5 is available in a variety of different colour combinations. These are:

Classic white (with blue anti-glare disk) or Modern white (rose anti-glare disc), Matt powder coated.

Hues of Blue (red anti-glare disc), Hues of Green (red anti-glare disc), Hues of Grey (rose anti-glare disc), Hues of Orange (blue anti-glare disc), Hues of Red (green anti-glare disc), Hues of Rose (green anti-glare disc), Matt wet painted.

Copper or in Brass.

To commemorate the fiftieth anniversary of the PH5 in 2008, a new range of gloss finish colours were introduced. The 'Hues of...' colourways were introduced by Louis Poulsen in 2018 to mark the 60th anniversary of this remarkable light.

See 'More products in this range' below.

Supplied with ceiling cone and 3m white textile cable. Max weight: 3kg

Light source: 1x75W E27 bulb (**not included**). IP 20 rating.

Please note: This is a CE-approved product and should only be used in countries that accept and adhere to this standard. If used in other countries, it will be the sole responsibility, risk and liability of the customer.
