

Tia 200 Modular Pendant

Designer: **Foster and Partners**

Manufacturer: **Lumina Italia**

£500

DESCRIPTION

Tia 200 Modular Pendant by **Foster + Partners** for **Lumina Italia**.

Tia 200 Modular Pendant adheres to Lumina's commitment to the recyclability of each component, designed for complete disassembly. Its composition includes a reflector and structure made of aluminium, along with optics crafted from satin PMMA, embodying Lumina's design principles.

The fixture effectively reduces glare and optimally distributes light by incorporating a lower filter composed of photo-etched brass foil.

The in-house developed dissipation system ensures the LED operates at the correct temperature. Both the heat sink and the lamp's central structure are precision crafted from turned aluminium utilizing advanced CNC technology.

Additionally, the lamp features a specialized filter to prevent the accumulation of dust, insects, and other substances that may create unwanted halos within the aluminium diffuser.

The lamp can be used as a single solitary pendant or can be used in numbers using different ceiling roses. For details on the selected configuration, please view the Configurations pdf in the Product Downloads section. Custom

configurations are available. Enquire for more details.

DIMENSIONS

Shade: 20dia
maximum drop: 3m

Single:

MATERIALS

Available in the following colours:

Ultra Matt White
Matt Black
Sapphire Blue
Battersea Green
Oxygen Red Soft-Touch
Metallic Bronze
Matt Brushed Aluminium

Ceiling rose in black or white. Please enter your choice in the text box.

Light source (for a single Tia 200 pendant):
5W LED
On-off, push dim, 1-10V
2700K or 3000K

Note:

A 2700K light emits a cosy, yellow-toned glow, while a 3000K light provides a crisp, white light. The 3000K lighting is ideal for lively spaces such as home offices, hallways, bathrooms, and kitchens.

The 2700K lights are better suited for areas where a warm and relaxing ambiance is desired, like the living room, dining room, and bedroom.

Please note: This is a CE-approved product and should only be used in countries that accept and adhere to this standard. If used in other countries, it will be the sole responsibility, risk and liability of the customer.
