

Dot 600 Lite Pendant Light

Designer: **Foster and Partners**

Manufacturer: **Lumina Italia**

£681

DESCRIPTION

Dot 600 Lite Pendant Light by **Foster + Partners** for **Lumina Italia**.

The Dot 600 Lite was designed with the purpose of creating grouped lighting solutions to enhance and adorn large spaces. The clusters of Dot lights ensure exceptional light dispersion and seamless integration into various environments.

Moreover, Dot 600 Lite showcases adaptability and simplicity in installation, owing to its innovative smart electrical connection system. This system effortlessly links diverse components, streamlining and expediting the setup process.

In line with Lumina's sustainability principles, Dot Lite incorporates only three key components and boasts easy disassembly. The lower disk accommodates the light source, while the recyclable PMMA reflector, painted for sustainability, optimizes light distribution within the surroundings. Completing the structure is the upper fixing cone.

Crafted from turned aluminium, the lamp body and LED-containing head are available in two elegant colour options: black and white.

DIMENSIONS

12/60dia x 21cmh

Maximum drop: 3m

Please refer to the product specification in the Product Downloads area for more details.

MATERIALS

Available in the following colours:

Semi-glossy black

Ultra matt white

Light source:

12W LED, 2700K or 3000K

Note:

A 2700K light emits a cosy, yellow-toned glow, while a 3000K light provides a crisp, white light. The 3000K lighting is ideal for lively spaces such as home offices, hallways, bathrooms, and kitchens.

The 2700K lights are better suited for areas where a warm and relaxing ambiance is desired, like the living room, dining room, and bedroom.
