DESCRIPTION

Daphine Terra Floor Lamp by **Tommaso Cimini** for **Lumina Italia**.

The Daphine range perfectly embodies Lumina's fundamental essence. The design concept is elegant yet highly efficient, incorporating a swivelling diffuser, a flexible arm with two segments, and an electromechanical transformer situated on a cylindrical base adorned with metallic caps.

Introduced to expand its functional range, the Daphine Terra floor lamp is a superb choice for a reading light by seating or bedside. Its arm, composed of two segments, and an easily adjustable head provide precise control over the light direction, ensuring optimal visual comfort.

The two segments of the arm, each proportioned nicely and of different lengths, offer flexibility in setting various angles. Through adjustments to their relative positions and that of the diffuser, the Daphine Terra lamp can be configured in a multitude of ways to direct light precisely where needed.

While an excellent reading lamp, the Daphine Terra also serves as an ambient light source, delivering diffuse lighting when the beam is directed towards a wall, thanks to its robust cast iron base that ensures stability.

Black Soft-Touch

Black Classic

Matt Red

Matt White

Matt Yellow

Metallic Bronze

Brushed Nickel

Yellow Gold Brushed

Light source:

9W LED, 2700K or 3000K

Dimming:

Controlled by a switch which can be set in the following ways:

on/half light/off or stepless dimmer.

Note:

A 2700K light emits a cosy, yellow-toned glow, while a 3000K light provides a crisp, white light. The 3000K lighting is ideal for lively spaces such as home offices, hallways, bathrooms, and kitchens.

The 2700K lights are better suited for areas where a warm and relaxing ambiance is desired, like the living room, dining room, and bedroom.
