

Luna, 1999

Designer: **Teppo Asikainen**

Manufacturer: **Offecct**

£191

DESCRIPTION

Luna designed by **Teppo Asikainen** for **Offecct**.

The Soundwave series of sculptural wall panels combines functionality and aesthetics and is specifically designed to enhance the acoustic properties of any interior used for human communication and social interaction. While most acoustic products are concealed in the fabric of the interior, Soundwave resembles 3D wallpaper.

Luna is a heavyweight broadband absorber with extended efficiency in the low-frequency range. This panel is very efficient in reducing the reverberation time (sound bouncing around) in a room.

Please note: The Luna is available to order in a minimum quantity of 12.

DIMENSIONS

58.5w x 8d x 58.5cmh

MATERIALS

Recyclable moulded polyester fiber, with plastic back plate, in off-white and grey.
