DESCRIPTION

Mariolina Mono by **Enzo Mari** for **Magis**.

Enzo Mari is considered to be one of the greats in the world of design.

The Mariolina is a simple, minimal chair, but the attention to detail included in the design transforms a humble seat into an intelligent object: the slim legs and curved backrest are designed to provide comfort and easy posture, without compromising on the aesthetic and style of the chair.

The Mariolina revives the fifties-style but features a series of extra details. The legs in powder-coated steel tube are in fact slimmer and more precise in section. The polypropylene seat and back are not screwed or riveted to the frame, but instead attached using a series of moulded ribs that grip the metal frame on the rear of the seat and back.

Mariolina is stackable up to 12 pieces.
