DESCRIPTION

Sitting Cat kitchen sponge by Marna.

The sitting cat sponge is a playful and practical addition to the kitchen sink with a distinctively Japanese character.

A washing-up sponge with an appealing cat-shaped profile and two sides: one sponge and one scourer for heavy-duty scrubbing of pots and pans.

When not assisting with the washing up, the shape of the sponge allows it to perch on the side of the sink, draining water from its toes and ensuring it is dry when next used.
