

Ginger A XL42 Wall Light, 2014

Designer: **Joan Gaspar**

Manufacturer: **Marset**

£1,586

DESCRIPTION

Ginger A XL 42 wall light by **Joan Gaspar** for **Marset**.

The Ginger family is characterised by a lightweight disk-shaped shade which pays tribute to the drums of Ginger Baker of Cream, the 1960s rock band.

The collection uses new materials and technology applied to the lighting sector: layers of wood, paper and resin shaped under high pressure to achieve a pendant shade thickness of just 4 mm. Although wood is difficult to shape, the Ginger collection has found a way to make it work, resulting in a sleek and intimate lamp with a light source with a soft glow.

This Ginger A XL42 Wall Light features a movable swing arm in black lacquered aluminium that can be extended or retracted, making it easy to reposition the shade for different lighting needs.

The Ginger collection includes a floor and table lamp and pendant light.

DIMENSIONS

Shade - diameter 42 x 8.6cmh

Arm - 132cm

Wall fixing - 24.6w x 40cmd

Max drop - 55cm
