DESCRIPTION

Dipping A1 wall light by **Jordi Canudas** for **Marset**.

The Dipping Lamp seeks to offer more than just function; it conveys a striking spectacle of colour.

The light was born from an experiment where a light bulb was hand-dipped into paint multiple times to create concentric rings of colour.

When it's on, its varying shades of paint sift and filter the light, creating a magical effect in its surroundings. When off, the colourful glass sphere is a simple object of beautiful aesthetics.

The layering of paint moderates the light intensity when illuminated, performing as a shade and developing a range of ambient light to suit any décor.
