DESCRIPTION

Bolita Light by **Kaschkasch Cologne** for **Marset**.

At first glance, the Bolita lamp has a seemingly simple design. It is, in fact, a technologically innovative lamp with a strong human aspect and sense of touch.

The Bolita's design is both elegant and enchanting. It consists of a smooth, rounded surface that encases an LED positioned at the centre axis with a glass sphere overlapping. Moving the Bolita creates an eclipse effect, mesmerisingly dimming or brightening the light.

Seemingly simple, this ingenious light encourages us to interact with the objects of our home.
