

Lightwood armchair mesh, 2013

Designer: **Jasper Morrison**

Manufacturer: **Maruni**

£716

DESCRIPTION

Lightwood armchair mesh by **Jasper Morrison** for **Maruni**.

Introducing the Lightwood collection, one of Jasper Morrison's first design projects while living in Japan. Inspired by the ability of Japanese architects and designers to make things light in appearance, Morrison combined with the expert wood craftsmanship of Maruni's to achieve the light wooden structure and visual transparency.

The versatile lightwood armchair is offered in a choice of fabric options, the mesh seat reiterates the chair's lightweight expression. See 'product range' below for the various seat solutions available.

DIMENSIONS

52w x 47.8d x 45/79.8cmh

MATERIALS

Available in maple in the following urethane finishes: clear, black, matt white.

Also available in oak in clear and whitish urethane, and in ash with a clear urethane finish.

The wood used in this product is obtained from maple, oak or ash trees in North America that are managed and felled in a planned manner.

See downloadable spec sheet for more details on wood finishes.

The paints, adhesives and plywood used here suppress VOC emissions in manufacturing processes and finished products.

The seat consists of a white synthetic mesh.

Also available with a webbing or cushioned seat - see 'More products in this range' below.
