

Lightwood Bar Stool High, 2011

Designer: **Jasper Morrison**

Manufacturer: **Maruni**

£902

DESCRIPTION

Lightwood bar stool by **Jasper Morrison** for **Maruni**.

Introducing the Lightwood collection, one of Jasper Morrisons first design projects while living in Japan. Inspired by the ability of Japanese architects and designers to make things light in appearance, Morrison combined with the expert wood craftsmanship of Maruni's to achieve the light wooden structure and visual transparency.

The versatile lightwood bar stool is offered in a choice of fabric options. The mesh seat reiterates the chair's lightweight expression whereas the webbed seat provides an interesting contrast with the inherently solid wood frame. A mid sized version is also available, please see 'product range' below.

DIMENSIONS

46.8w x 43.5d x 78.2/109.3cmh

MATERIALS

Available in maple in the following finishes: clear, red, black, matt white.

Available in clear or whitish oak.

Also available in clear ash.

The wood used in this product is obtained from maple, oak or ash trees in North America that are managed and felled in a planned manner.

The paints, adhesives and plywood used here suppress VOC emissions in manufacturing processes and finished products.

Seat with mesh, webbing or cushioned.

Cushioned seat upholstered in fabrics and leathers of the collection. Please click on fabric name below for links to manufacturer page and description:
