

Lightwood Chair Cushion, 2011

Designer: **Jasper Morrison**

Manufacturer: **Maruni**

£662

DESCRIPTION

Lightwood side chair - cushioned by **Jasper Morrison** for **Maruni**.

"Like many previous chair projects I have designed the Lightwood Chair is about structure, making use of the unbeatable craftsmanship of Maruni's wood technology to achieve a light wooden structure. This can be completed with a variety of different solutions for the seat, starting with the lightest, a white mesh, which leaves the structure partially visible, then a woven webbing which reminds us of shaker furniture, except that it's a synthetic webbing which makes an interesting contrast with the wood, and then the more traditional upholstered seat in fabric or leather, which provide extra comfort and can be removed for cleaning. It's a contract chair which is equally suitable for the home." Jasper Morrison.

DIMENSIONS

46.8w × 46.7d × 46.7/78.2cmh

MATERIALS

Available in maple in the following urethane finishes: clear, red, black, matt white.

Also available in oak, urethane clear and whitish lacquered finish, and in ash with urethane clear lacquer.

The wood used in this product is obtained from maple, oak or ash trees in North America that are managed and felled in a planned manner.

The paints, adhesives and plywood used here suppress VOC emissions in manufacturing processes and finished products.
