

Lightwood Chair, Paper Cord

Designer: **Jasper Morrison**

Manufacturer: **Maruni**

£935

DESCRIPTION

Lightwood Chair, Paper Cord by **Jasper Morrison** for **Maruni**.

The Maruni Lightwood collection marks one of Jasper Morrison's early design ventures during his residency in Japan. Influenced by the remarkable ability of Japanese architects and designers to instil a sense of airiness into objects, Morrison collaborated with Maruni's masterful wood artisans to realize a delicate wooden framework that exudes visual lightness.

Introducing the Lightwood Chair, featuring a seat woven from paper cord, as the latest inclusion in this collection. The chair seamlessly integrates into the series, with the paper cord's inherent qualities harmonizing effortlessly with the chair's structure. This fresh undertaking also emerges from a shared commitment to sustainability between the company and the designer, highlighting the significance of utilizing materials with minimal environmental impact.

DIMENSIONS

46.8w × 46.7d × 46.7/78.2cmh

MATERIALS

Available in maple or ash wood in the clear or black urethane coated finish. Also available in oak in urethane coated clear, whitish or natural black finishes.

The maple, oak or ash wood used in this product are obtained from trees in North America that are managed and felled in a planned manner.

Paper cord seat, made from paper with small amount of resin.

The paints, adhesives and plywood used here suppress VOC emissions in manufacturing processes and finished products.
