

O stool, 2016

Designer: **Jasper Morrison**

Manufacturer: **Maruni**

£565

DESCRIPTION

O stool by **Jasper Morrison** for **Maruni**.

Launched at the Milan Furniture Fair in 2016, the O stool adds to the existing family of furniture Jasper Morrison has already designed for Japanese manufacturers Maruni.

The O stool makes optimum use of 3D wood machining technology and is shaped from solid maple/ash wood with a clear urethane varnish. The seat has a gently concave profile with an oblong slot to assist with carrying.

The stool comes in with maple, oak or ash wood finish, with a clear urethane coating.

Available in three heights: small, medium and high.

Please note: Small does not have a rung, therefore select n/a.

DIMENSIONS

Small: 42w x 32d x 44.5cmh

Medium: 45w x 33.5d x 65.5cmh

High: 47.5w x 36d x 79.5cmh

MATERIALS

Seat and legs are made of maple, oak or ash, in a variety of finishes.

The wood used in this product is obtained from maple, oak or ash trees in North America that are managed and felled in a planned manner.

See downloadable spec sheet for details on wood finishes.

The coating and glue used here reduce VOC emissions in manufacturing processes and finished products.

A steel bar footrest spans the front legs of the medium and high stools, powder-coated in black, green or red. In addition to offering a durable footrest, this element provides a fresh contrast with the wood.
