

T1 chair, 2016

Designer: **Jasper Morrison**

Manufacturer: **Maruni**

£784

DESCRIPTION

T1 chair by **Jasper Morrison** for **Maruni**.

Launched at the Milan Furniture Fair in 2016, the T1 chair adds to the existing family of furniture Jasper Morrison has already designed for Japanese manufacturers Maruni.

The T1 chair makes optimum use of 3D wood machining technology, with the chair seat, legs and backrest shaped from solid maple, oak or ash wood and finished with a clear, whitish or natural urethane coating. A coloured strip of sprung steel connects seat and backrest, providing a degree of movement that enhances comfort. The steel also offers a fresh contrast with the wood.

Also available as a barstool, see 'More products in this range' below.

DIMENSIONS

40.5w x 44.5d x 44.5/73cmh

MATERIALS

Seat and backrest in maple, oak or ash, in variety of finishes.

The wood used in this product is obtained from maple, oak or ash trees in North America that are managed and felled in a planned manner.

See downloadable spec sheet for details on wood finishes.

The coating and glue used here reduce VOC emissions in manufacturing processes and finished products.

Central strut supporting backrest made of steel powder-coated in black, green or red.

T chair also available in black stained maple and black steel.
