

Ferric Table

Designer: **Chris Martin**

Manufacturer: **Massproductions**

£6,912

DESCRIPTION

Ferric Table by **Chris Martin** for **Massproductions**.

The Ferric table is a versatile table designed for workspaces and dining areas. Available in a range of sizes.

"I had an idea of assembly behind it, almost like Meccano, a sort of metal Lego that everyone played with when I was young. It was logical to turn it into a system that can be assembled by hand, and at the same time be extended and joined together for longer tables." Chris Martin.

The name, Ferric, refers to the Latin word for iron and the table itself is a celebration of ironwork. Here metal plates are bolted together with cross braces, much like the ones you find on bridges. The legs consist of iron profiles and plates, which combines perfectly with the tabletop in natural wood.

Please note the prices are based on a table with the dimensions: 444w x 100d x 73cmh. Please **enquire** through our shop or showroom to order other heights.

DIMENSIONS

Prices are based on a table with the dimensions: 444w x 100d x 73cmh.
