

Mauro chair, 2018

Designer: **Mauro Pasquinelli**

Manufacturer: **Established and Sons**

£660

DESCRIPTION

Mauro chair by **Mauro Pasquinelli** for **Established + Sons**.

Originally conceptualised in the 1970s by the Italian designer Mauro Pasquinelli, the Mauro chair has only now been made a reality. Featuring a gracefully curved seat and seat back, this stackable chair has a unique geometry that exudes effortless style and comfort. However, initial attempts to manufacture the chair were hindered by its futurist design - the technology didn't exist to produce the chair in significant numbers or at an affordable price.

Rediscovered by designer **Sebastian Wrong** on a visit to a plywood factory in Italy, the Mauro chair has been reproduced for the modern age, using modern processes that preserve the quality and style of the original model.

DIMENSIONS

51.5w x 49d x 45/77cmh

MATERIALS

Made of solid ash or oak, and available with a non-removable leather-covered seat and seatback.
