

WNG Chair

Designer: **Magnus Laessoe Stephensen**

Manufacturer: **Mazo**

£960

DESCRIPTION

WNG Chair by **Magnus Læssøe Stephensen** for **Mazo**.

Designed in 1937 by Danish architect and furniture designer Magnus Læssøe Stephensen, WNG is an inviting seat with a juvenile presence. Its upholstered seat and backrest are full and plump, enhancing its sinuous silhouette.

The backrest features two wings on either side, which embrace the user when seated. This design feature became a staple of Stephensen's designs and also played an important part in inspiring many other furniture designers.

WNG is a statement chair ideal for use in bedrooms and living spaces.
