DESCRIPTION

Offcuts Wood Block Print 1 by Mentsen.

This limited edition Offcuts Wood Block Print 1 showcases the exceptional craftsmanship and ingenuity of Mentsen's London studio. These abstract A4 design prints are meticulously handprinted on Japanese washi paper from timber offcuts from the Desktop Mobile 33. Rather than flaws, the unique knots and cracks in the wood are embraced, giving new life to the leftover material that would otherwise be discarded.

In this numbered collection, Mentsen allows the material to inform the design outcome, resulting in beautiful, understated artworks celebrating the leftover London Plane wood.

Please note: Frame not included.
