The Afterroom chair is a modern sculptural chair created by Taiwanese designers Hung-Ming Chen and Chen-Yen Wei, also known as Afterroom.

The design of the dining chair pays homage to Bauhaus and functionalism. "The simplicity of its design combined with the quality of materials is what's important. We embraced the challenge of designing something minimalistic with clean lines, without in any way compromise its comfort", says Hung-Ming

Light in weight and easy to move around, the Afterroom chair is well-suited to domestic and commercial spaces such as bars and restaurants.
