

Column Table Lamp

Manufacturer: **Menu**

£150

DESCRIPTION

Column Table Light by **Menu**.

The Column Table Lamp by Menu is a streamlined and elegant design in a subtle bronze colour. Inspired by the bollards used to secure boats to a jetty, it combines functionality with beauty, with its sculpturally cylindrical form and mushroom shaped head. Suitable for any interior style or setting, whether traditional or minimal.

Column Table Lamp is fully portable due to its cordless design that charges via USB, whilst the LED lightbulb produces a warm and comfortable glow, with three settings.
