Tearoom Lounge Chair by **Nick Ross** for **Menu**.

The Tearoom Lounge Chair designed by Nick Ross for Menu is the epitome of luxurious comfort due to its fully upholstered frame and clean silhouette. Drawing inspiration from the 1904 Willow Chair, Tearoom Lounge strikes the perfect balance of being neither too casual nor too structured and formal.

Every design element of the chair is gently curved to both contour the body, and to create a beautiful rounded shape. Suitable for both traditional and more contemporary interior settings, Tearoom Lounge's sculptural form is timeless and fitting for both the home and commercial Contracts projects.
