DESCRIPTION

Triple Peaks Down by **Michael Anastassiades**.

Peaks is a versatile lighting fixture characterised by its cone-shaped shades, which give off a distinctly abstract and geometric still-life vibe. These 2023 designed pendants boast a minimal yet impactful presence and are suitable for various settings.

The light is available in two lighting directions, either upward or downward, and three installation options: single, paired, or trio. When the Peaks pendant is lit up, the shading on its curved surface undergoes a graceful transformation as light dances along its contours.
