DESCRIPTION

Mini wooden crow by Mikael Nilsson.

Mikael Nilsson has produced a miniature version of his perennially popular crow wooden sculptures. Despite its reduced stature, the Mini crow captures the essential personality of this most characterful and intelligent of native birds.

Each wooden crow is unique, hand-carved with an axe and a knife and made from black-stained lime wood.

Born in Linköping, Sweden, in 1972, Mikael studied Handicraft and Culture at Linköpings University. Of his crow sculptures he says, "I try to give each figure a personality, express a feeling, motion, gesture. I make crows because I like them and would like to have a real one as a friend."

Please note Due to the hand-made quality of this item, all crows are different. Please enquire for further information.
