

Model 63 Bench

Designer: **Niels Otto Møller**

Manufacturer: **J L Møllers Møbelfabrik**

£1,047.50

DESCRIPTION

Model 63 Bench by **Niels Otto Møller** for **J.L. Møllers Møbelfabrik**.

In 1944, Niels Otto Møller founded J.L. Møllers Møbelfabrik in Denmark. J. L. Møllers Møbelfabrik produces chairs of extremely high quality, in timeless designs. The chairs are sold around the world and the Møller chair has become the epitome of Danish design.

Furniture from J.L. Møller is assembled using old craft techniques. As far as possible no modern technology is used. Each employee is a specialist in a specific process for creating each item, giving it a unique quality and elegance. All tenons, mortices and dowels are all glued by hand. Each bench is also polished by hand to give a better result than using a polishing machine.

The Nils Møller model 63 bench was designed in 1963 and exemplifies the quality of design and construction.

DIMENSIONS

150w x 40d x 46cmh

MATERIALS

Frame in beech (soaped, oiled or lacquered), oak (soaped, oiled, lacquered, smoked), teak (oiled or lacquered) or walnut (oiled or lacquered).
