

Shelving System S.115.2.E

Manufacturer: **Moebe**

£1,763

DESCRIPTION

Shelving System S.115.2.E by MOEBE.

The MOEBE Shelving System is a flexible and adaptable modular system. The component-based design can be built on over time, creating a unique storage solution to suit your space and needs. The S.115.2.E Shelving System configuration features two tall cupboards held in place by the system's unique wedge design.

Unless fixed to the wall, no screws or tools are necessary for assembly. Instead, tapered wedges are installed from below to secure the cabinets in place. This design removes the limitation of fixed shelving heights and encourages customised configurations.

You can create your custom furniture piece as tall or wide as you prefer and rotate it around shared legs, enabling endless design options. With a variety of shelf and frame finishes, each exuding its distinct style, the system can suit a range of aesthetic possibilities.

To build a custom system, you can choose from four sizes of shelves, three leg lengths, a clothes bar, a dual-door cabinet, a desk and a back plate. Internal shelves for the cupboards can be purchased separately.

DIMENSIONS

163w x 35d x 115cmh

MATERIALS

The cabinets are available in oiled oak veneer, smoked oak veneer or black stained oak.

The powder coated steel frame is available in deep blue, pine green, warm grey, black or white.

The black cabinets are available with matching black frame only.

If you're interested in purchasing a custom configuration, please contact us [here](#) for more details.
