Shelving System S.200.2.A

Manufacturer: **Moebe**

~~Was £1,683~~ Now £1,430

DESCRIPTION

Shelving System S.200.2.A by MOEBE.

The MOEBE Shelving System is a flexible and adaptable modular storage solution that allows the freedom to create arrangements that cater to your unique space.

Unless fixed to the wall, no screws or tools are necessary for assembly. Instead, tapered wedges secure the shelves in place, wider at the bottom than the top, facilitating them to be placed at any desired position so they can be adapted to specific needs. The astute design leverages gravity to ensure a secure fixing as weight drives downwards, locking the shelves firmly in place.

Constructed entirely from individual components, the MOEBE Shelving System can be easily customised and adjusted. You can create your furniture piece as tall or wide as you prefer and rotate it around shared legs, enabling endless design options. With a variety of shelf and frame finishes, each exuding its distinct style, the system offers a plethora of aesthetic possibilities.

To build a custom system, you can choose from four sizes of shelves, three leg lengths, a clothes bar, a dual-door cabinet, a desk and a back plate.

DIMENSIONS

163w x 35d x 200cmh

MATERIALS

The shelves are available in oiled oak veneer, smoked oak veneer or black stained oak veneer.

The powder coated steel frame is available in deep blue, pine green, warm grey, black or white.

The black and white shelves are available with matching frame only.

If you're interested in purchasing a custom configuration, please contact us [here](#) for more details.
