

## Shelving System S.200.3.D

Manufacturer: **Moebe**

£2,500

### DESCRIPTION

**Shelving System S.200.3.D by MOEBE.**

The MOEBE Shelving System is a highly flexible and adaptable modular storage solution that allows you to create customised arrangements that cater to your unique space.

The system is designed so that no screws or tools are required for assembly unless fixed to the wall. The shelves are secured by tapered wedges, which are wider at the bottom than the top, allowing them to be placed at any desired position and adapted to specific needs. The astute design uses gravity to ensure a secure fixing, as the weight drives downwards, firmly locking the shelves in place.

The MOEBE Shelving System is entirely constructed from individual components, making it easy to customise and adjust. You can create your furniture piece as tall or broad as you prefer and rotate it around shared legs, providing endless design options. The system offers many aesthetic possibilities with various shelf and frame finishes, each exuding its distinct style.

To build a custom system, you can choose from four sizes of shelves, three leg lengths, a clothes bar, a dual-door cabinet, a desk, and a backplate.

## DIMENSIONS

239w x 35d x 200cmh

## MATERIALS

The shelves are available in oiled oak veneer, smoked oak veneer or black stained oak veneer.

The powder coated steel frame is available in deep blue, pine green, warm grey, black or white.

The black and white shelves are available with matching frame only.

If you're interested in purchasing a custom configuration, please contact us [here](#) for more details.
