

Shelving System S.65.1.A

Manufacturer: **Moebe**

£1,953

DESCRIPTION

Shelving System S.65.1.A by MOEBE.

The endlessly adaptable MOEBE Shelving System is a modular storage solution that allows the freedom to create arrangements that cater to your unique space. The S.65.1.A configuration features three shelves.

The shelving system is assembled using separate components that can be effortlessly customised and adapted. You can build your unit to be as tall or wide as you prefer and rotate it around the shared legs, giving you endless design possibilities. The shelving system features a variety of frame and shelf finishes, making it suitable for any space.

The shelves are secured in place using tapered wedges that are wider at the bottom than the top. This design utilises gravity to provide a stable and secure fixing as weight drives downwards, locking the shelves in place. There is no need for screws or tools during assembly, and you can place the shelves in any position you desire.

To build a custom system, you can choose from four sizes of shelves, three leg lengths, a clothes bar, a dual-door cabinet, a desk, a back plate and cabinets.

DIMENSIONS

86w x 35d x 65cmh

MATERIALS

The shelves are available in oiled oak veneer, smoked oak veneer or black stained oak veneer.

The powder coated steel frame is available in deep blue, pine green, warm grey, black or white.

The black shelves are available with matching frame only.

If you're interested in purchasing a custom configuration, please contact us [here](#) for more details.
