

Shelving System S.65.2.D

Manufacturer: **Moebe**

£1,176

DESCRIPTION

Shelving System S.65.2.D by MOEBE.

The MOEBE Shelving System is a highly versatile storage solution that can be arranged to suit your needs. The S.65.2.D configuration includes two cabinets, which can be used as a sideboard or as a starting point to design your custom storage structure.

The system is constructed using individual components, allowing for infinite reconfiguration and adaptability. There are four sizes of shelves, three leg lengths, a clothes bar, a dual-door cabinet, a desk, and a back plate.

The assembly process requires no tools or screws. Instead, gravity is utilised to secure the shelving. Tapered wedges with a wide base are placed between the legs and shelves. The weight of the shelves pushes downwards, securing their position. This allows you to position the shelves at any desired height.

DIMENSIONS

163w x 35d x 65cmh

MATERIALS

The shelves and cabinets are available in oiled oak veneer, smoked oak veneer or black stained oak veneer.

The powder coated steel frame is available in deep blue, pine green, warm grey, black or white.

The black stained shelves are available with matching black frame only.

If you're interested in purchasing a custom configuration, please contact us [here](#) for more details.
