

## Heracleum III Endless Pendant

Designer: **Bertjan Pot**

Manufacturer: **Moooi**

£2,240

### DESCRIPTION

**Heracleum III Endless Pendant** by **Bertjan Pot** for **Moooi**.

This decorative LED lamp from Moooi designed in 2014 is inspired by the Heracleum Plant. The Heracleum Endless pendant light is a perpetual blossom of new branches that can be added to by the meter. The possibilities are almost limitless by combining straight lines, angles and corners.

'Leaves' play out from 'stems' creating a very technical but natural structure. This pendant light design is created by using the technique of coating conductive layers which would not be possible with normal wires.

The Heracleum 'leaves' are not frozen in one position. They can be freely re-positioned by rotating them around their stem. Heracleum includes a new LED which is much more efficient while providing unique and sparkling illumination.

### DIMENSIONS

116w x 57d x 37cmh

Available as 116cm sections with 2 types of connector, either 90 or 135 degrees or with end cover set.

2 suspension wires for each section.
