

Heracleum The Big O Pendant

Designer: **Bertjan Pot**

Manufacturer: **Moooi**

£9,014

DESCRIPTION

Heracleum The Big O Pendant by **Bertjan Pot** for **Moooi**.

The decorative LED lamp designed for Moooi in 2012 is inspired by the Heracleum Plant.

'Leaves' splay out from 'stems' creating a very technical but natural structure. This pendant light design is created by using the technique of coating conductive layers which would not be possible with normal wires.

The Heracleum 'leaves' are not frozen in one position. They can be freely re-positioned by rotating them around their stem. Heracleum includes a new LED which is much more efficient while providing unique and sparkling illumination.

Dimmable with mains voltage dimmer (dimmer for incandescent, halogen). Please make sure to use a dimmer rated for a low power luminaire.

Heracleum now includes a new LED that allows endless technical possibilities, making this new version much more efficient while providing unique and sparkling illumination.

Cable length 4m Powered through Electrosandwich® by Marcel Wanders.

Input voltage: 220-240V ~ 50Hz

Power consumption: MAX 72W

Colour Temperature: 2700K / CRI 81

Dimmable: Mains dimmable, with recommended dimmer only.

Luminous flux (Lumen, lm): 2600 lm

Light source: 324 LEDS, included

Cable Length: 4.00 m

Cable Colour: Transparent

Canopy: 2x Steel Pebble, matching colour

DIMENSIONS

Large: 210dia x 23cmh

Small: 160dia x 36cmh

MATERIALS
